Full Stack Web Development (Full Time)

Masai School, Bengaluru

June 2022 – Present

Diploma-Electrical Engineering

B.O.S.E, Cuttack

Jul 2017 – Aug 2019

PROJECTS

Industry Buying Website [🔗](#) [Github](#) [🔗](#)

Industry Buying is an online marketplace for industrial supplies. Users can browse through various categories of products or can search based on the title, brand, etc.

Features:

- Login & signup.
- Search, sort & filter functionalities.
- Admin section for database management.
- Add to cart functionality.

Tech-Stack: ReactJS | Redux | NodeJS | ExpressJS | MongoDB | Chakra UI.

Areas of responsibility:

- My responsibilities in developing the cart page, checkout page, and payment page, collaborated with four other members on this project, which was completed within a timeframe of just 5 days.

Rakia Website [🔗](#) [Github](#) [🔗](#)

It is an e-commerce website designed by me that would have a modern, visually appealing design, and would allow customers to browse and purchase products such as jeans, shirts, t-shirts, hoodies, and shoes. Customers could filter products by category, brand, etc.. also they can manage their order, which was completed within a timeframe of one month.

Features:

- Login & Signup.
- Admin side & User side.
- Authentication functionality is developed.
- Order management.
- Search, & filter functionalities.

Tech-stack: Reactjs | Chakra-Ui | Redux | HTML AOS library | SweetAlert2. | ExpressJS | NodeJS MongoDB

- It is an individual project.
